In 2023, the Town Plan survey had mixed results regarding municipal development regulations. There is a need for more education and discussion on possible development regulations. An extension of the South Alburgh water system will allow more residents to connect to municipal water and reduce reliance on private lake direct systems, which have water quality issues. Construction for Phase 2 of this project will begin in late 2024, and the town plans to obtain exploratory funding for a Phase 3 extension afterward. The town is also actively pursuing a project to identify and address sources of excess flow on the village wastewater system to increase capacity.</p>
