

Municipal Plan Review Tool

Town of Isle La Motte – Preliminary Review

This form addresses the statutory requirements of the State of Vermont for town plans, as cited in the Vermont Municipal and Regional Planning and Development Act, Title 24 V.S.A Chapter 117 (the Act). It includes the 12 required elements found in § 4382 of the Act; the four planning process goals found in § 4302(b), the 14 specific goals found in § 4302(c); and the standard of review found in § 4302(f), which covers consistency with goals and compatibility standards.

During the Regional approval and confirmation process, specified in § 4350 of the Act, the regional planning commission is required to assess town plans and the process whereby they are developed according to the criteria of the Act. Sections of relevant statute are quoted at each question.

TOWN PLAN REQUIRED ELEMENTS

Title 24 Chapter 117: Municipal and Regional Planning and Development

24 V.S.A. § 4382. The plan for a municipality

(a) A plan for a municipality may be consistent with the goals established in section 4302 of this title and compatible with approved plans of other municipalities in the region and with the regional plan and shall include the following:

(1) A statement of objectives, policies and programs of the municipality to guide the future growth and development of land, public services and facilities, and to protect the environment.

Met

Pages: 4-5

Comments: The introduction chapter contains a vision, purpose statement, and list of implementation actions to guide the future of Isle La Motte. Goals and policies related to specific topics are listed at the end of each chapter.

(2) A land use plan, consisting of a map and statement of present and prospective land uses, that:

Met

Pages: 7-14

(A) Indicates those areas proposed for forests, recreation, agriculture (using the agricultural lands identification process established in 6 V.S.A. § 8), residence, commerce, industry, public and semi-public uses and open spaces, areas reserved for flood plain, and areas identified by the State, the regional planning commission, or the municipality that require special consideration for aquifer protection; for wetland protection, for the maintenance of forest blocks, wildlife habitat, and habitat connectors; or for other conservation purposes.

MAPS

Present Land Use Plan ✓

Prospective Land Use Plan ☒

(B) Sets forth the present and prospective location, amount, intensity and character of such land uses and the appropriate timing or sequence of land development activities in relation to the provision of necessary community facilities and service.

(C) Identifies those areas, if any, proposed for designation under chapter 76A of this title, together with, for each area proposed for designation, an explanation of how the designation would further the plan's goals and the goals of § 4302 of this title, and how the area meets the requirements for the type of designation to be sought.

(D) Indicates those areas that are important as forest blocks and habitat connectors and plans for land development in those areas to minimize forest fragmentation and promote the health, viability, and ecological function of forests.

Comments: These points are addressed in the land use chapter on pages 13-14. Future land use districts are outlined in this chapter, and vision statements characterize the level and type of development desired in each district. The land use chapter also details plans to pursue a Village

Town of Isle La Motte Preliminary Plan Review

Center designation for Isle La Motte Village to promote small-scale economic development. Additional information is available in the Natural Resources section on pages 7-12, including maps showing flood areas, forest blocks, wetlands, and significant species.

(3) A transportation plan, consisting of a map and statement of present and prospective transportation and circulation facilities showing existing and proposed highways and streets by type and character of improvement, and where pertinent, parking facilities, transit routes, terminals, bicycle paths and trails, scenic roads, airports, railroads and port facilities, and other similar facilities or uses, with indications of priority of need;

Met

Pages: 17-19

MAP

Transportation

Comments: The transportation chapter covers roads, bridges, bicycle & pedestrian facilities, public transportation, and rail and air connections serving Isle La Motte. Priority areas of improvement are reducing speeding and widening shoulders to benefit bicycles and pedestrians. The transportation map is located on page 19.

(4) A utility and facility plan, consisting of a map and statement of present and prospective community facilities and public utilities showing existing and proposed educational, recreational and other public sites, buildings and facilities, including hospitals, libraries, power generating plants and transmission lines, water supply, sewage disposal, refuse disposal, storm drainage and other similar facilities and activities, and recommendations to meet future needs for community facilities and services, with indications of priority of need, costs and method of financing;

Met

Pages: 24-27, 29-48

MAP

Utility and Facility

Comments: The Utilities, Facilities, and Services chapter covers education, childcare, recreation, emergency services, water & wastewater, solid waste disposal, telecommunications and the library. Potential plans and next steps are also discussed for revitalizing two underutilized town-owned buildings, the Historic Town Hall and the former Elementary School. More information on energy generation is available in the Enhanced Energy Plan appendix.

(5) A statement of policies on the preservation of rare and irreplaceable natural areas, scenic and historic features and resources;

Met

Pages: 7-12

Comments: The Historic, Cultural and Natural Resources chapter contains information on natural resources and historic features in Isle La Motte, including wetlands, habitat blocks, scenic resources, rare and irreplaceable areas, air quality, flood hazard resilience, and archaeological resources. Policies are to foster a flood resilient community and to encourage conservation of significant natural resources and areas, historically significant buildings, archeological and scenic resources.

Town of Isle La Motte Preliminary Plan Review

(6) An educational facilities plan consisting of a map and statement of present and projected uses and the local public school system;

Met
Pages: 25, 27

Comments: Information on educational facilities is located on page 25 in the Utilities, Facilities and Services chapter. Isle La Motte’s elementary school closed in 2023, and students currently attend schools in other towns. The town is currently exploring adaptive reuse options for the building, including a childcare/youth center. There is no specific map of educational facilities, but the former school building is shown on the Facilities and Services map on page 27.

MAP
Educational Facility

(7) A recommended program for the implementation of the objectives of the development plan;

Met
Pages: 5-6

Comments: The action items table on pages 5 and 6 lists implementation tasks based on goals and policies found throughout the plan, and the responsible party for each action.

(8) A statement indicating how the plan relates to development trends and plans of adjacent municipalities, areas and the region developed under this title;

Met
Pages: 28

Comments: The Compatibility with Neighboring Towns and The Region chapter on page 28 discusses the plan’s compatibility with Alburgh, North Hero, and the NRPC Regional Plan.

(9) An energy plan, including an analysis of energy resources, needs, scarcities, costs and problems within the municipality, a statement of policy on the conservation of energy, including programs, such as thermal integrity standards for buildings, to implement that policy, a statement of policy on the development of renewable energy resources, a statement of policy on patterns and densities of land use likely to result in conservation of energy;

Met
Pages: 29-48

Comments: The Enhanced Energy Plan in the appendix thoroughly covers every topic as listed above. Goals, policies and actions are listed on pages 36 and 37.

(10) A housing element that shall include a recommended program public and private actions to address housing needs as identified by the regional planning commission pursuant to subdivision 4348a(a)(9) of this title. The program should use data on year-round and seasonal dwellings and include specific actions to address the housing needs of persons with low income and persons with moderate income and account for permitted residential development as described in section 4412 of this title.

Met
Pages: 20-21

Town of Isle La Motte Preliminary Plan Review

Comments: The housing chapter on pages 20-21 thoroughly addresses each topic as listed above. Data on the existing housing stock is shown and future housing needs are discussed, including more affordable options for low- and moderate-income households and age-friendly housing units.

(11) An economic development element that describes present economic conditions and the location, type, and scale of desired economic development, and identifies policies, projects, and programs necessary to foster economic growth.

Met

Pages: 22-23

Comments: The economy chapter on pages 22 and 23 discusses the workforce and current businesses in Isle La Motte, as well as economic development strategies such as applying for a Village Center. Desired economic growth is centered on small businesses, home-based businesses and agriculture.

(12)(A) A flood resilience plan that:

(i) identifies flood hazard and fluvial erosion hazard areas, based on river corridor maps provided by the Secretary of Natural Resources pursuant to 10 V.S.A. § 1428(a) or maps recommended by the Secretary, and designates those areas to be protected, including floodplains, river corridors, land adjacent to streams, wetlands, and upland forests, to reduce the risk of flood damage to infrastructure and improved property; and

Met

Pages: 8, 12

(ii) recommends policies and strategies to protect the areas identified and designated under subdivision (12)(A)(i) of this subsection and to mitigate risks to public safety, critical infrastructure, historic structures, and municipal investments.

(B) A flood resilience plan may reference an existing local hazard mitigation plan approved under 44 C.F.R. § 201.6.

Comments: The flood hazard resiliency section on page 8 outlines specific flood vulnerabilities in Isle La Motte and potential ways to address them, such as elevating roads and requiring all development to be raised up above possible floodwaters. Floodplains are shown on the Water Resources map located on page 12. There are no fluvial erosion hazard areas in Isle La Motte.

GOALS AND STANDARDS OF REVIEW

24 VSA § 4302

(a) General purposes . . .

(b) It is also the intent of the legislature that municipalities, regional planning commissions and state agencies shall engage in a continuing planning process that will further the following goals:

- (1) To establish a coordinated, comprehensive planning process and policy framework to guide decisions by municipalities, regional planning commissions, and state agencies.
- (2) To encourage citizen participation at all levels of the planning process, and to assure that decisions shall be made at the most local level possible commensurate with their impact.
- (3) To consider the use of resources and the consequences of growth and development for the region and the state, as well as the community in which it takes place.
- (4) To encourage and assist municipalities to work creatively together to develop and implement plans.

(c) In addition, this chapter shall be used to further the following specific goals:

Goal 1: To plan development so as to maintain the historic settlement pattern of compact village and urban centers separated by rural countryside.

Consistent

Pages: 13-15, 23-25

(A) Intensive residential development should be encouraged primarily in areas related to community centers, and strip development along highways should be discouraged.

(B) Economic growth should be encouraged in locally designated growth areas, or employed to revitalize existing village and urban centers, or both.

(C) Public investments, including construction or expansion of infrastructure, should reinforce the general character and planned growth patterns of the area.

How has the Town Plan addressed this goal: The land use chapter states that the purpose of the Village District is to provide for a concentrated area of residential, commercial, and municipal development. The economy chapter states that the town is seeking a Village Center Designation to support local economic growth in the village center. Public investments related to strengthening the center are discussed in revitalization plans for the Historic Town Hall and former school building.

If the goal is not relevant or attainable, how does the plan address why:

Town of Isle La Motte Preliminary Plan Review

Goal 2: To provide a strong and diverse economy that provides satisfying and rewarding job opportunities and that maintains high environmental standards, and to expand economic opportunities in areas with high unemployment or low per capita incomes.

Consistent

Pages: 21-23

How has the Town Plan addressed this goal: The economy chapter supports the development of small businesses, home-based businesses and agriculture that are in keeping with the rural nature of Isle La Motte. It also discusses the need to expand high-speed internet to support a workforce that largely works from home.

If the goal is not relevant or attainable, how does the plan address why:

Goal 3: To broaden access to educational and vocational training opportunities sufficient to ensure the full realization of the abilities of all Vermonters.

Inconsistent

Pages:

How has the Town Plan addressed this goal:

If the goal is not relevant or attainable, how does the plan address why:

Goal 4: To provide for safe, convenient, economic and energy efficient transportation systems that respect the integrity of the natural environment, including public transit options and paths for pedestrians and bicyclers.

Consistent

Pages: 17-19

(A) Highways, air, rail and other means of transportation should be mutually supportive, balanced and integrated.

How has the Town Plan addressed this goal: The transportation chapter discusses the need for widened shoulders to increase pedestrian and bicycle safety, and supporting state and regional initiatives that promote alternatives to single-occupancy vehicle travel.

If the goal is not relevant or attainable, how does the plan address why:

Goal 5: To identify, protect and preserve important natural and historic features of the Vermont landscape including:

(A) significant natural and fragile areas;

(B) outstanding water resources, including lakes, rivers, aquifers, shorelands and wetlands;

(C) significant scenic roads, waterways and views;

(D) important historic structures, sites, or districts, archaeological sites and archaeologically sensitive areas

Consistent

Pages: 7-12

Town of Isle La Motte Preliminary Plan Review

How has the Town Plan addressed this goal: These goals are discussed in the Historic, Cultural and Natural Resources chapter, which identifies specific resources to protect and preserve in Isle La Motte.

If the goal is not relevant or attainable, how does the plan address why:

Goal 6: To maintain and improve the quality of air, water, wildlife, forests and other land resources.

Consistent

Pages: 7-12

How has the Town Plan addressed this goal: Strategies for maintaining air quality, water quality, and wildlife habitat are discussed in the Historic, Cultural and Natural resources chapter..

If the goal is not relevant or attainable, how does the plan address why:

Goal 7: To encourage the efficient use of energy and the development of renewable energy resources.

Consistent

Pages: 29-48

How has the Town Plan addressed this goal: The Enhanced Energy Plan in the appendix addresses this goal in detail, including current energy sources and uses, equity and affordability, target usage numbers, and renewable energy generation potential. Goals, policies and implementation actions related to energy efficiency and renewability are listed on pages 36-37.

If the goal is not relevant or attainable, how does the plan address why:

Goal 8: To maintain and enhance recreational opportunities for Vermont residents and visitors.

Consistent

Pages: 25

(A) Growth should not significantly diminish the value and availability of outdoor recreational activities.

(B) Public access to noncommercial outdoor recreational opportunities, such as lakes and hiking trails, should be identified, provided, and protected wherever appropriate.

How has the Town Plan addressed this goal: The recreation section discusses strategies to enhance recreational opportunities in Isle La Motte, including establishing trails on town-owned properties and improving the town park.

If the goal is not relevant or attainable, how does the plan address why:

Goal 9: To encourage and strengthen agricultural and forest industries.

Consistent

Pages: 22-23

Town of Isle La Motte Preliminary Plan Review

- (A) Strategies to protect long-term viability of agricultural and forest lands should be encouraged and should include maintaining low overall density.
- (B) The manufacture and marketing of value added agricultural and forest products should be encouraged.
- (C) The use of locally-grown food products should be encouraged.
- (D) Sound forest and agricultural management practices should be encouraged.
- (E) Public investment should be planned so as to minimize development pressure on agricultural and forest land.

How has the Town Plan addressed this goal: The economy chapter states that town encourages the development of small businesses, home-based businesses and agriculture that are in keeping with the rural nature of Isle La Motte. An economic goal of the town plan is to promote information on existing incentives to maintain farms and preserve agricultural land, such as the current use program and land trusts. Resource-based businesses such as farming or forestry are one of the top three types of business surveyed residents would like to see in Town.

If the goal is not relevant or attainable, how does the plan address why:

Goal 10: To provide for the wise and efficient use of Vermont's natural resources and to facilitate the appropriate extraction of earth resources and the proper restoration and preservation of the aesthetic qualities of the area.

Consistent
Pages: 9

How has the Town Plan addressed this goal: Extraction of earth resources is discussed on page 9. There is one marble quarry located in Isle La Motte, and the plan discusses the need to that ensure quarries are properly managed and that project sites are restored at the end of the quarry's lifespan. Avoiding the disturbance of wetlands or other natural resources is also mentioned regarding the extraction of earth resources.

If the goal is not relevant or attainable, how does the plan address why:

Goal 11: To ensure the availability of safe and affordable housing for all Vermonters.

Consistent
Pages: 20-21

(A) Housing should be encouraged to meet the needs of a diversity of social and income groups in each Vermont community, particularly for those citizens of low and moderate income.

(B) New and rehabilitated housing should be safe, sanitary, located conveniently to employment and commercial centers, and coordinated with the provision of necessary public facilities and utilities.

(C) Sites for multi-family and manufactured housing should readily available in locations similar to those generally used for single-family conventional dwellings.

Town of Isle La Motte Preliminary Plan Review

(D) Accessory apartments within or attached to single family residences which provide affordable housing in close proximity to cost-effective care and supervision for relatives or disabled or elderly persons should be allowed.

How has the Town Plan addressed this goal: The housing chapter discusses the need for more affordable and age-friendly housing units. Isle La Motte does not have zoning regulations, so there are no restrictions on multifamily housing, manufactured housing or accessory dwellings.

If the goal is not relevant or attainable, how does the plan address why:

Goal 12: To plan for, finance and provide an efficient system of public facilities and services to meet future needs.

(A) Public facilities and services should include fire and police protection, emergency medical services, schools, water supply and sewage and solid waste disposal.

(B) The rate of growth should not exceed the ability of the community and the area to provide facilities and services.

How has the Town Plan addressed this goal: The Utilities, Facilities, and Services chapter contains information on education, childcare, recreation, emergency services, water & wastewater, solid waste disposal, telecommunications and the library. In particular, the need to expand childcare, recreation, and high-speed internet access are discussed as priorities to meet the needs of current and future residents.

If the goal is not relevant or attainable, how does the plan address why:

Goal 13: To ensure the availability of safe and affordable child care and to integrate child care issues into the planning process, including child care financing, infrastructure, business assistance for child care providers, and child care work force development.

How has the Town Plan addressed this goal: The need for increased access to childcare in Isle La Motte is addressed on page 25. The plan also mentions that town is currently exploring adaptive reuse options for its former school building, including a possible childcare/youth center.

If the goal is not relevant or attainable, how does the plan address why:

Goal 14: To encourage flood resilient communities.

(A) New development in identified flood hazard, fluvial erosion, and river corridor protection areas should be avoided. If new development is to be built in such areas, it should not exacerbate flooding and fluvial erosion.

Consistent

Pages: 24-27

Consistent

Pages: 24-25

Consistent

Pages: 8, 12

Town of Isle La Motte Preliminary Plan Review

(B) The protection and restoration of floodplains and upland forested areas that attenuate and moderate flooding and fluvial erosion should be encouraged.

(C) Flood emergency preparedness and response planning should be encouraged.

How has the Town Plan addressed this goal: The flood hazard resiliency section on page 8 outlines specific flood vulnerabilities in Isle La Motte and potential ways to address them, such as elevating roads and requiring all development to be raised up above possible floodwaters. Floodplains are shown on the Water Resources map located on page 12. There are no fluvial erosion hazard areas in Isle La Motte.

If the goal is not relevant or attainable, how does the plan address why:

Regional Plan and Adjacent Community Plan Compatibility

Regional Plan

Is the municipal plan compatible with its regional plan?

Yes

Comments:

The Regional Plan identifies proposed land use areas that are similar to those identified in the Isle La Motte Town Plan. The majority of land in Isle La Motte is designated in the Agricultural Resource Planning Area or Rural Planning Area. There are small areas of Isle La Motte located within the Conservation & Forest Resource Planning Area, the majority of which is marshland. The town plan supports efforts to preserve this area as described in the natural resources chapter. The main vision statement of the Isle La Motte plan centers around the importance of agriculture, recreation, and water resources, which are priorities in the Regional Plan as well.

Adjacent Municipalities

Is the municipal plan compatible with approved plans of other municipalities in the region?

Yes

The Compatibility with Neighboring Towns and the Region chapter discusses Isle La Motte's compatibility with the Alburgh and North Hero town plans. Lands adjacent to these municipalities are designated for low-density residential uses in the Isle La Motte plan, which is the same category of use that lands adjacent to Isle La Motte are designated for in the Alburgh and North Hero plans.

STANDARD OF REVIEW

24 V.S.A. § 4302(f)

(1) As used in this chapter, "consistent with the goals" requires substantial progress toward attainment of the goals established in this section, unless the planning body determines that a particular goal is not relevant or attainable. If such a determination is made, the planning body shall identify the goal in the plan and describe the situation, explain why the goal is not relevant or attainable, and indicate what measures should be taken to mitigate any adverse effects of not making substantial progress toward that goal. The determination of relevance or attainability shall be subject to review as part of a consistency determination under this chapter.

(2) As used in this chapter, for one plan to be "compatible with" another, the plan in question, as implemented, will not significantly reduce the desired effect of the implementation of the other plan. If a plan, as implemented, will significantly reduce the desired effect of the other plan, the plan may be considered compatible if it includes the following:

(A) a statement that identifies the ways that it will significantly reduce the desired effect of the other plan;

(B) an explanation of why any incompatible portion of the plan in question is essential to the desired effect of the plan as a whole;

(C) an explanation of why, with respect to any incompatible portion of the plan in question, there is no reasonable alternative way to achieve the desired effect of the plan, and

(D) an explanation of how any incompatible portion of the plan in question has been structured to mitigate its detrimental effects on the implementation of the other plan.

24 V.S.A. § 4350. Review and consultation regarding municipal planning effort

(a) A regional planning commission shall consult with its municipalities with respect to the municipalities' planning efforts, ascertaining the municipalities' needs as individual municipalities and as neighbors in a region, and identifying the assistance that ought to be provided by the regional planning commission. As a part of this consultation, the regional planning commission, after public notice, shall review the planning process of its member municipalities at least twice during an eight-year period, or more frequently on request of the municipality, and shall so confirm when a municipality:

Town of Isle La Motte Preliminary Plan Review

(1) is engaged in a continuing planning process that, within a reasonable time, will result in a plan which is consistent with the goals contained in section 4302 of this title; and

(2) is maintaining its efforts to provide local funds for municipal and regional planning purposes.

(b)(1) As part of the consultation process, the commission shall consider whether a municipality has adopted a plan. In order to obtain or retain confirmation of the planning process after January 1, 1996, a municipality must have an approved plan. A regional planning commission shall review and approve plans of its member municipalities, when approval is requested and warranted. Each review shall include a public hearing which is noticed at least 15 days in advance by posting in the office of the municipal clerk and at least one public place within the municipality and by publication in a newspaper or newspapers of general publication in the region affected. The commission shall approve a plan if it finds that the plan:

(A) is consistent with the goals established in section 4302 of this title;

(B) is compatible with its regional plan;

(C) is compatible with approved plans of other municipalities in the region; and

(D) contains all the elements included in subdivisions 4382(a)(1)-(10) of this title.

Review and Approval Process

The following procedures shall be used for Regional Planning Commission review of municipal plans. The first procedure pertains to review of municipal plan adoptions and re-adoptions. The second is a procedure for review of municipal plan amendments.

Town Plan Review & Approval Process – Adoptions and Re-adoptions

1. The regional planning commission (RPC) receives a request for municipal plan approval. Staff will encourage municipalities to submit requests for approval at the time of noticing the Planning Commission public hearing.
2. **Preliminary Review.** Staff will complete a Preliminary Staff Review of the draft plan when requests for regional approval are received for a municipal plan that is still under review by the local Planning Commission. Staff may convene a Municipal Plan Review Committee meeting to review the draft plan, and the Preliminary Staff Review, and to make any recommendations to the Planning Commission. Staff will provide comments from the preliminary staff review to the local Planning Commission, including notification of any content or lack thereof that could preclude RPC approval.
3. **Final Review.** Staff will complete a Final Staff Review for municipal plans that have recently been adopted or where the final Selectboard hearing has been or will soon be warned. If the staff review reveals a flaw that would preclude RPC approval, the municipality will be notified. It is the municipality's option as to whether they want a final decision on the plan or if the plan should be withdrawn from the approval process.
4. The Final Staff Review, including draft findings and recommendations, will be provided to the Municipal Plan Review Committee. The Municipal Plan Review Committee shall meet at least once to review the Town Plan, Final Staff Review and prepare findings and recommendations to the Board of Regional Commissioners.
5. The RPC will hold a duly warned public hearing before the RPC makes its final decision on regional approval of the plan and confirmation of the municipalities planning process.
6. The Municipal Plan Review Committee will provide findings and recommendations to the Board of Regional Commissioners on regional approval of the municipal plan and confirmation of the planning process.
7. In all cases the RPC will take final action on the plan approval request within 60 days of its receipt.

Town Plan Amendment Review Process

1. The regional planning commission (RPC) receives a request to review an amendment to the municipal plan.

Town of Isle La Motte Preliminary Plan Review

2. Staff will complete a Final Staff Review, including draft findings, and a recommendation on whether or not the amendment may be approved within the context of the current regional approval of the municipal plan, or if the amendment constitutes a material change to the plan that is beyond the scope of the current regional approval. At the discretion of staff, the staff review and findings will be provided to the Municipal Plan Review committee for review and approval.
3. The Final Staff Review, including findings and recommendations, shall be provided to the municipality. If the amendment constitutes a material change to the plan that is beyond the scope of the current regional approval, the municipality will have the option of submitting the amended plan for regional approval.

Final Staff Review shall consist of the following items:

1. Staff review checklist contained in Municipal Plan Review Tool.
2. Energy Planning Standards for Municipal Plans – Determination Checklist (if requested/relevant)
3. Municipal Plan Implementation Assessment (for confirmation of planning program)

Town of Isle La Motte Preliminary Plan Review

Municipal Plan Review Committee

The Chair of NRPC will appoint a five-member Municipal Plan Review Committee following the annual meeting each year. The Municipal Plan Review Committee is responsible for reviewing all plans submitted for approval during that year. Board members representing the municipality whose plan or amendment is under review must temporarily recuse themselves as a member of the Committee. They may, however, act on behalf of the municipality during the review process, and provide testimony at the public hearing.

The Committee, at its first meeting in each fiscal year, will elect a Chair to run meetings, the public hearing(s), and to present the Panel's recommendations to the Board and a Vice-Chair to assume the duties of the Chair as needed.

It is the responsibility of the Committee to consider staff recommendations and any comments from the municipality, neighboring municipalities, and other interested parties; and to make recommendations to the Board of Commissioners in the form of written findings and conclusions. If requested, the Committee may provide preliminary comments on a draft plan prior to the final review and findings.

NRPC staff shall organize and warn the required public hearing and any Municipal Plan Review Committee meetings. Committee members shall attend the public hearing or review the record of the hearing. The Committee will prepare written findings and recommendations. The Committee's findings and recommendations will be presented to the Board of Commissioners for action.

Staff Responsibilities

After submission of a request for regional approval by the local legislative body, one or more staff members, appointed by the Executive Director, will conduct a review of a proposed plan or plan amendment. Staff will encourage municipalities to submit requests for regional approval at the time of noticing the planning commission public hearing. When requests are received at this time or at a minimum prior to noticing the first legislative body hearing, staff will conduct a preliminary review of the plan prior to the final review. Staff will review plans using the checklist provided in the Municipal Plan Review Tool. Under direction of the Committee, staff will complete all required public notifications, prepare written findings and otherwise assist the Committee.
